RAFI BAGASKARA HALILINTAR

Website Developer

About Me

My main programming language was PHP. The Framework that i usually use for any kind of project is Lumen and Laravel. Its been 6 years i've become programmer and lot of thing i've created using that. I also learn another programming language to keep me update abt technology like Python, C#, C++, Java, Javascript, Ruby on Rails. But if you ask me abt what programming language should i choose other than PHP? My naswer will be Python.

Experience

2020-Present

Managing Director - Bauix Indo

Leading all the needs and requirements needed both in terms of production, maintenance and development. In this case, my main role as director is more focused on establishing a good relationship between the client and the production team.

2020
